DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted:

Group I, claim(s) 1-9, 14, 15, 18 and 19, drawn to image reconstruction by pixel extraction along a time axis,

Group II, claim(s) 10, 11, 16 and 20-27, drawn to image reconstruction by pixel filtering along a time axis, and

Group III, claim(s) 12, 13 and 17, drawn to image reconstruction by change detection and averaging along a time axis;

Should applicant elect group II above, a further election of species between the following is required:

Species IIA, claims 10, 11, 16, 20 and 21, drawn to filtering and weighting along a time axis,

Species IIB, claim 23, drawn to sum of averages filtering along a time axis (specification paragraph 163),

Species IIC, claim 24, drawn to weighted sum filtering along a time axis (specification paragraph 164),

Species IID, claim 25, drawn to median filtering along a time axis (specification paragraph 165),

Species IIE, claim 26, drawn to differential filtering along a time axis (specification paragraph 168), and

Species IIF, claim 27, drawn to pre-emphasis filtering along a time axis (specification paragraph 169);

Claim 22 being generic to all species of Group II will be examined along with the elected species.

The groups of inventions listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups II and III do not require the pixel extraction of group I. Groups I and II do not require the pixel filtering of group II. Groups I and II do not require the change detection and averaging of group III. The species identified in group II above all recite mutually exclusive filtering techniques as identified above.

2. A telephone call was not made due to the complexity of the claimed subsection matter.
3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If

claims are added after the election, applicant must indicate which of these claims are readable on the elected invention or species.

Should applicant traverse on the ground that the inventions have unity of invention (37 CFR 1.475(a)), applicant must provide reasons in support thereof. Applicant may submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case. Where such evidence or admission is provided by applicant, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
